

NOTICE OF 2012 DUST CONTROL PROGRAM

The Council of the City of Moose Jaw intends to control dust on the listed streets and to assess a part of the cost upon the lands fronting or abutting directly on the work. The street dust control program is an attempt to keep roads as dust free as possible but it is no guarantee this can be accomplished. One treatment will be applied. An additional coat(s) may be applied during the summer if, in the opinion of the City Engineer, such treatment is necessary. There is no assured number of applications other than the original coat.

The special assessment frontage rate is \$24.45 per metre for land fronting or directly abutting the work which is to be paid in cash on or before November 15, 2012. If not paid on or before November 15, 2012 the charge of \$24.45 per metre shall be increased to \$25.92 per metre and the said cost shall be added to the 2012 Tax Roll as a special assessment against the land.

Owners of land fronting or abutting directly on the work who desire to petition against undertaking the work may obtain a Petition from the City Assessor's Office. Petitions must be received by the City Clerk no later than 4:45 p.m., March 15, 2012.

The City may scarify and grade the roads from time to time. Roads may not be scarified and graded if patching will provide the necessary dust control. The dust control assessment per front metre will still apply as the monies will be spent as required for patching.

Dated at Moose Jaw, Saskatchewan this 16th day of February, A. D. 2012.

Myron Gulka-Tiechko - City Clerk
